Commentaries

How does topical lidocaine relieve pain

James N. Campbell

pages 255-256

Modelling pain in post-traumatic osteoarthritis of the knee

Anne-Marie Malfait

pages 257-258

The role of co-morbidity in accumulating risk of chronic pain

Danielle van der Windt

pages 259-260

What does an increased prevalence of behavioral and psychological symptoms of dementia in individuals with pain mean?

Stephen J. Gibson

pages 261-262

One failed clinical trial (of 5HT₃ antagonists) does not invalidate the concept

Matti Förster, Ralf Baron

pages 263-264

Topical Reviews

Estimate at your peril: Imputation methods for patient withdrawal can bias efficacy outcomes in chronic pain trials using responder analyses

R. Andrew Moore, Sebastian Straube, Christopher Eccleston, Sheena Derry, Dominic Aldington, Philip Wiffen, Rae F. Bell, Katri Hamunen, Ceri Phillips, Henry McQuay

pages 265-268

Are we neglecting spinal reorganization following nerve damage?

Nanna Brix Finnerup, Lone Nikolajsen, Troels Staehelin Jensen

pages 269-272

Research Papers

Click on the title of the paper to view the abstract. To view full text, first log in at the IASP website.

Lidocaine patch (5%) produces a selective, but incomplete block of A and C fibers
Elena K. Krumova, Martina Zeller, Andrea Westermann, Christoph Maier
pages 273-280

Partial medial meniscectomy produces osteoarthritis pain -related behaviour in female C57BL/6 mice
Chancie Bayer Knights, Clive Gentry, Stuart Bevan
pages 281-292

Unpacking the burden: Understanding the relationships between chronic pain and comorbidity in the general population
Clare H. Dominick, Fiona M. Blyth, Michael K. Nicholas
pages 293-304

Association of pain with behavioral and psychiatric symptoms among nursing home residents with cognitive impairment: Results from the SHELTER study
Matteo Tosato, Albert Lukas, Henriette G. van der Roest, Paola Danese, Manuela Antocicco, Harriet Finne-Soveri, Thorsten Nikolaus, Francesco Landi, Roberto Bernabei, Graziano Onder
pages 305-310

Effect of intravenous tropisetron on modulation of pain and central hypersensitivity in chronic low back pain patients
Alban Y. Neziri, Martina Dickenmann, Pasquale Scaramozzino, Ole K. Andersen, Lars Arendt-Nielsen, Anthony H. Dickenson, Michele Curatolo
pages 311-318

A randomized controlled evaluation of an online chronic pain self management program
Linda S. Ruhlman, Paul Karoly, Craig Enders
pages 319-330

Psychophysical and cerebral responses to heat stimulation in patients with central pain, painless central sensory loss, and in healthy persons
Kenneth L. Casey, Michael Geisser, Jürgen Lorenz, Thomas J. Morrow, Pamela Paulson, Satoshi Minoshima
pages 331-341

Patient perspective on herpes zoster and its complications: An observational prospective study in patients aged over 50 years in general practice
Didier Bouhassira, Olivier Chassany, Jacques Gaillat, Thomas Hanslik, Odile Launay, Claude Mann, Christian Rabaud, Olivier Rogeaux, Christophe Strady
pages 342-349

Are both the sensory and the affective dimensions of pain encoded in the face?
Miriam Kunz, Stefan Lautenbacher, Nadine LeBlanc, Pierre Rainville
pages 350-358

Prevalence and aetiology of neuropathic pain in cancer patients: A systematic review
Michael I. Bennett, Clare Rayment, Marianne Hjermstad, Nina Aass, Augusto Caraceni, Stein Kaasa
pages 359-365

The complement component C5a receptor mediates pain and inflammation in a postsurgical pain model
De-Yong Liang, XiangQi Li, Xiaoyu Shi, Yuan Sun, Peyman Sahbaie, Wen-Wu Li, J. David Clark
pages 366-372

Effects of spatially targeted transcutaneous electrical nerve stimulation using an electrode array that measures skin resistance on pain and mobility in patients with osteoarthritis in the knee: A randomized controlled trial
Alexander F. Kolen, Ron N.J. de Nijs, Femke M. Wagemakers, Anna J.L. Meier, Mark I. Johnson
pages 373-381

Neural mechanisms mediating the effects of expectation in visceral placebo analgesia: An fMRI study in healthy placebo responders and nonresponders
Sigrid Elsenbruch, Vassilios Kotsis, Sven Benson, Christina Rosenberger, Daniel Reidick, Manfred Schedlowski, Ulrike Bingel, Nina Theysohn, Michael Forsting, Elke R. Gizewski
pages 382-390

Double spikes to single electrical stimulation correlate to spontaneous activity of nociceptors in painful neuropathy patients
Roland Schmidt, Inge Petter Kleggetveit, Barbara Namer, Tormod Helås, Otilia Obreja, Martin Schmelz, Ellen Jørum
pages 391-398

Unmyelinated and myelinated skin nerve damage in Guillain-Barré syndrome: Correlation with pain and recovery
Liselotte Ruts, Pieter A. van Doorn, Raffaella Lombardi, Elize D. Haasdijk, Paola Penza, Joke H.M. Tulen, Roelie J. Hempel, Anton H. van den Meiracker, Giuseppe Lauria
pages 399-409

Purinergic receptor P2Y1 regulates polymodal C-fiber thermal thresholds and sensory neuron phenotypic switching during peripheral inflammation
Michael P. Jankowski, Kristofer K. Rau, Deepak J. Soneji, Katrina M. Ekmann, Collene E. Anderson, Derek C. Molliver, H. Richard Koerber
pages 410-419

Experimental characterization of the effects of acute stresslike doses of hydrocortisone in human neurogenic hyperalgesia models
Gilles P.N. Michaux, Walter Magerl, Fernand Anton, Rolf -Detlef Treede
pages 420-428

Impact of pain on the course of depressive and anxiety disorders
Marloes M.J.G. Gerrits, Nicole Vogelzangs, Patricia van Oppen, Harm W.J. van Marwijk, Henriette van der Horst, Brenda W.J.H. Penninx
pages 429-436

Too sick for school? Parent influences on school functioning among children with chronic pain
Deirdre E. Logan, Laura E. Simons, Elizabeth A. Carpino
pages 437-443

Sex similarities and differences in pain-related periaqueductal gray connectivity
Clas Linnman, Jan-Carl Beucke, Karin B. Jensen, Randy L. Gollub, Jian Kong
pages 444-454

Practice, practitioner, or placebo? A multifactorial, mixed-methods randomized controlled trial of acupuncture
Peter White, Felicity L. Bishop, Phil Prescott, Clare Scott, Paul Little, George Lewith
pages 455-462

Differential effects of experimental central sensitization on the time-course and magnitude of offset analgesia
Katherine T. Martucci, Marc D. Yelle, Robert C. Coghill
pages 463-472

Menthol pain relief through cumulative inactivation of voltage-gated sodium channels
Christelle Gaudioso, Jizhe Hao, Marie-France Martin-Eauclaire, Mélanie Gabriac, Patrick Delmas
pages 473-484

Immune conditions associated with CD4+ T effector-induced opioid release and analgesia
Jérôme Boué, Catherine Blanpied, Marilena Djata-Cabral, Lucette Pelletier, Nathalie Vergnolle, Gilles Dietrich
pages 485-493

Group cognitive behavioural interventions for low back pain in primary care: Extended follow-up of the Back Skills Training Trial (ISRCTN54717854)
Sarah E. Lamb, Dipesh Mistry, Ranjit Lall, Zara Hansen, David Evans, Emma J. Withers, Martin R. Underwood, On behalf of the Back Skills Training Trial Group.
pages 494-501

Letters to the Editor

Noppers et al., Drug-induced liver injury following a reported course of ketamine treatment for chronic pain in CRPS type I patients . A report on 3 cases. Pain 2011;152:2173-8

Dagmar Westerling, Peter Lindblom
page 502

S(+)-Ketamine analgesic drug dose

Albert Dahan, Ingeborg Noppers, Marieke Niesters, Leon Aarts, Elise Sarton, Asbjørn M. Drewes
pages 502-503
